PROFESSIONAL SUMMARY

UI/UX Designer with 4 years of experience delivering over 50 enterprise intranet portals for global clients across food science, analytics, and logistics industries. Specialise in end-to-end product design, from stakeholder interviews and information architecture to high-fidelity Figma prototypes and SharePoint SPFx implementation. Skilled in user research, usability testing, design systems, and cross-functional collaboration. Seeking a mid-level UI/UX Designer role at a product company, MNC, or growth-stage startup.

SKILLS

Design Tools: Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, Framer, Webflow, Sketch

UX Methods: User Research, Information Architecture, Wireframing, Prototyping, Usability Testing, Competitive Analysis, Persona Creation, User Flows, Journey Mapping

UI Design: Visual Design, Interaction Design, Responsive Design, Design Systems, Component Libraries, Micro-interactions, Accessibility, WCAG

Development: SharePoint, SPFx, HTML, CSS, JavaScript basics, Fluent UI

Collaboration: Stakeholder Management, Cross-functional Collaboration, Design Critique, Agile, Scrum, Notion, Miro, FigJam, Jira

WORK EXPERIENCE

UI/UX Designer

SharePoint Designs, Chennai, India
November 2022 to Present

- Delivered over 50 enterprise projects for global corporate clients, designing intuitive and responsive user interfaces for SharePoint intranet platforms and internal business tools.
- Owned end-to-end design process from stakeholder interviews and requirement gathering through information architecture, high-fidelity Figma prototypes, and SharePoint SPFx implementation.
- Conducted user research, competitive analysis, and usability testing to inform design decisions and continuously improve user experience across client projects.
- Built reusable component libraries and design systems in Figma, reducing design to development handoff time and ensuring visual consistency across multiple client engagements.
- Developed custom SPFx web parts including interactive US Map components and employee onboarding dashboards with personalised welcome flows and 90-day milestone timelines.
- Designed complete SaaS product experience for DocVault AI, from marketing landing page to full SharePoint application UI, delivering both brand and product design end to end.
- Created product landing pages, brand assets, and marketing collateral aligned to client brand guidelines and design systems.

- Collaborated with cross-functional teams of developers, product managers, and stakeholders to ensure designs met both business goals and user needs.

KEY PROJECTS

DocVault AI - SharePoint Document Management SaaS Product

Designed complete product from scratch, both marketing landing page and full application UI. Solo designer working with cross-functional team over 1 to 3 months. Live commercial product at sharepointdesigns.webflow.io.

NutriDash - Health-Centric Food Delivery Mobile App

Concept mobile app with real user validation. Conducted survey with 30 respondents and 6 in-person usability testing sessions. Delivered 4 design iterations based on user feedback.

Fuel Buddy - Fuel Price Comparison Mobile App

Concept mobile app combining real-time fuel price comparison with roadside assistance features. Designed 6 high-fidelity screens with complete user flows and design system.

EDUCATION

Bachelor's Degree in Fire and Industrial Safety

ASSET Institute of Technology, Chennai
2017 to 2021
